

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Bernard & Joan Doherty
DOCKET NO.: 03-29778.001-R-1
PARCEL NO.: 13-25-315-012-0000

The parties of record before the Property Tax Appeal Board are Bernard & Joan Doherty, the appellants, by attorney Michael Griffin of Chicago, and the Cook County Board of Review.

The subject property consists of a 95-year-old, three-story, six unit, multi-family dwelling of masonry construction containing 8,751 square feet of living area with six full bathrooms and a full-unfinished basement. The subject is located in West Chicago Township, Cook County.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted a one-page brief, a photograph of the subject, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellants' documents, the four suggested comparables offered by the appellants consist of two-story or three-story, four or six unit, multi-family dwellings of masonry construction located within close proximity to the subject. Three of the comparables are located on the same street and within two blocks of the subject. The improvements range in size from 4,550 to 10,785 square feet of living area and range in age from 89 to 102 years. The comparables contain four or six full bathrooms and a full-unfinished basement. Two comparables contain a one-car or multi-car detached garage. The improvement assessments range from \$6.04 to \$6.99 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 4,400
IMPR.:	\$ 61,169
TOTAL:	\$ 65,569

area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$70,099. The subject's improvement assessment is \$65,699 or \$7.51 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, two, three or five unit, multi-family dwellings of masonry construction located on the same street and block as the subject. The improvements range in size from 3,229 to 5,085 square feet of living area and range in age from 95 to 100 years. The comparables contain from three to five full bathrooms and a finished or unfinished basement. Two comparables contain a two-car detached garage. The improvement assessments range from \$8.00 to \$11.76 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Board finds the appellant's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, number of units and location and have improvement assessments ranging from \$6.55 to \$6.99 per square foot of living area. The subject's per square foot improvement assessment of \$7.51 falls above the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size, number of units and/or design. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject

dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
